The 1967 Louisiana wild turkey season opens April 1 and continues through April 23. There is growing interest in wild turkey hunting in the state for two important reasons. One is that the wild turkey is North America's largest game bird and the other is that a restocking program being carried out by the Louisiana Wild Life and Fisheries Commission has greatly extended the range where turkeys were once present but depleted through over-hunting. As the program continues, the Commission hopes to establish flocks in every area of the state where there is suitable range.
